

FILLING SYSTEMS, INC.

Accumulating/Unscrambling Tables A-900

The AMS A-900 is an affordable and effective means of unscrambling empty containers and accumulating filled containers. It features a heavy duty base frame, sturdy drive motor, and anodized aluminum table top. Pairing both the A-900-U and A-900-A tables with any AMS automatic filler produces a smooth turnkey solution for even the most demanding filling lines.

AMS uses commercially available parts, which minimizes cost of ownership and maximizes *your* bottom line.

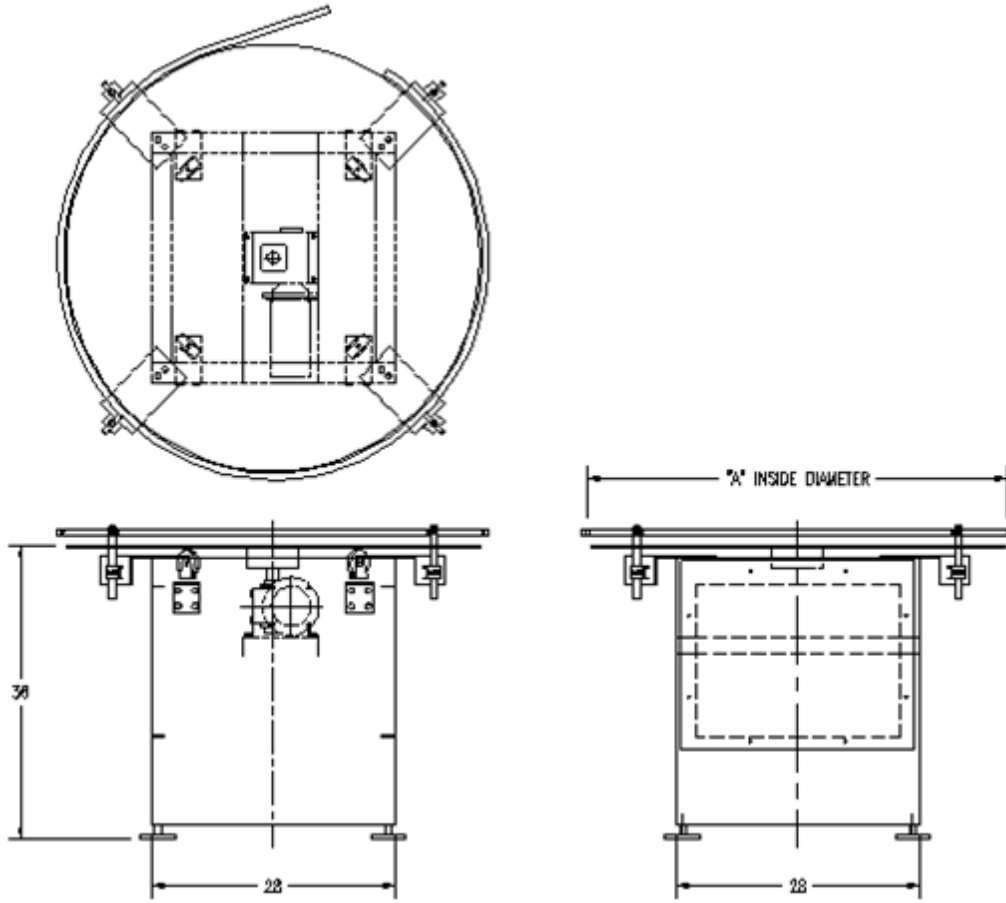

AMS Filling Systems designs, manufactures, and assembles custom auger filling machinery for the food, pharmaceutical, cosmetic, and chemical industries.

AMS offers a fully equipped manufacturing facility, an extensive product testing laboratory and machine demonstration area for our clients.

STANDARD FEATURES	BENEFITS
<ul style="list-style-type: none">• Heavy Duty Anodized Aluminum Table Top	<ul style="list-style-type: none">• Increased strength and durability for longer wear and tear.
<ul style="list-style-type: none">• Adjustable guide rails	<ul style="list-style-type: none">• Can be used with a multitude of container sizes.
<ul style="list-style-type: none">• 36",48" and 60" configurations	<ul style="list-style-type: none">• Increased flexibility.

A LEADER IN AUGER FILLING EQUIPMENT FOR OVER 20 YEARS

Accumulating/Unscrambling Tables A-900

TECHNICAL SPECIFICATIONS

• Main Drive Motor	• 1-1/2 HP, 1140 RPM, TEFC with Gear Reducer
• Controls	• 115 or 230 volts, 50-60 hz
• Weight	• 350 lbs
• Size	• Determined by Configuration

OPTIONAL COMPONENTS

- **Stainless Steel Construction**

BENEFITS

- **Corrosion-resistant, long-lasting and enables use in all industries.**
